Actinobacteria
Bacillus infantis
Bacteroides
Bacteroides fragilis
Bacteroidia
Bifidobacterium
Bifidobacterium breve
Bifidobacterium longum
Campylobacter
Campylobacter concisus
Campylobacter jejuni
Citrobacter rodentium
Clostridium
Clostridium perfringens
Enterobacteriaceae
Enterococcus
Escherichia coli
Escherichia faecalis
Faecalibacterium prausnitzii
Firmicutes
Fusobacterium
Haemophilus
Haemophilus influenzae
Helicobacter
Helicobacter hepaticus
Helicobacter pylori
Klebsiella pneumoniae
Lactobacillus
Lactobacillus acidophilus
Lactobacillus casei
Lactobacillus paracasei
Lactobacillus plantarum
Lactobacillus reuteri
Lactobacillus rhamnosus
Lactococcus lactis
Listeria monocytogenes
Mycobacterium tuberculosis
Mycoplasma pneumoniae
Peptoclostridium difficile
Porphyromonas gingivalis
Prevotella
Proteobacteria
Pseudomonas
Pseudomonas aeruginosa
Salmonella
Salmonella enterica
Shigella
Staphylococcus
Staphylococcus aureus
Streptococcus
Streptomyces aureus
Vibrio cholerae
Yersinia pestis
adenocarcinoma
Alzheimers disease
aortic valve stenosis
arthritis
asthma
atopic dermatitis
bacterial vaginosis
cancer
carcinoma
celiac disease
cholera
chronic fatigue syndrome
chronic obstructive pulmonary disease
colitis
colon cancer
colorectal cancer
constipation
cutaneous mastocytosis
cystic fibrosis
dengue shock syndrome
dermatitis
diarrhea
endocarditis
gastritis
gastroenteritis
GB streptococcal pneumonia
hepatitis
hepatitis type 1 diseases
inflammatory bowel disease
influenza
irritable bowel syndrome
Klebsiella pneumonia
malaria
meningitis
obesity
paratuberculosis
periodontal disease
periodontitis
peritonitis
pertussis
pneumonia
primary cutaneous amyloidosis
syndrome
tuberculosis
typhoid fever
ulcerative colitis
